 MELAMINE FACED BOARDS

 HIGH PRESSURE LAMINATE

The inspiration

CLASSIC OAK PANELS WITH A MODERN TOUCH

European Oaks have long been the preferred choice of traditional cabinet makers, the close graining and delicate whorls making for accurate working and a beautiful finished workpiece. Now you can achieve that look with even more stable, faultless and workable melamine faced boards.

01

The Collection

A TRIO OF FINELY DETAILED CHARACTERS

Three classic decors make up the collection. Greige Castello Oak is the popular off-grey tone not much darker than freshly cut untreated timber. The Honey Castello Oak, as the name suggests, is a warm and natural lightly 'stained' woodgrain. Finally the Brandy Castello Oak is a rich and lustrous finish reminiscent of finely crafted classic furniture. This ultra realistic decor is also very much on-trend, making a close connection to nature and the environment.

Available in MF PB, MF MDF and MFHDF with matching laminates and edging.

The texture

THE LOOK AND FEEL OF VENEER

Available on our Pure Wood (PW) texture; a stunningly realistic timber effect with a semi-matt finish that looks uncannily like a lightly polished veneer, but with all the manufacturing benefits of Melamine Faced Boards; strength, reliability, easy to work and a totally consistent performance.

The Combinations

MIX AND MATCH, COMPLEMENT AND CONTRAST

The fine detailing of the Castello Oaks means they work particularly well with simple unicolors that bring out the wealth of subtlety in their patterns. But they also harmonise with intricate marbles and with the hybrid textures and tones of the Flows decors. We've put together some evocative combinations to show the sheer versatility of these quality hardwood effects.

The integrated solution

SEAMLESS HARMONY ACROSS THE RANGE

With Kronodesign® decorative surfaces you are getting an exclusive, high quality and on-trend design, but we always ensure that our products are complementary. So whatever the project our products all work well together, giving designers and craftsmen the freedom and flexibility to create without restrictions. So there are always perfect matches across a range of products as well as laminates, edging and foils. This is what we call integrated solutions.

05

The environment

BIG STEPS TO A SMALL CARBON FOOTPRINT

Manufactured at our factory in the UK from a mix of recycled and FSC® certified timber, Kronodesign boards are environmentally friendly. What's more every board locks in carbon that would otherwise be released into the environment, and as they are completely recyclable that carbon can continue to be locked in.

And in the home environment our Melamine boards and HPL have exceeded the international standard ISO 22196:2011 (which measures a surface's antibacterial effectiveness and the reduction in bacteria over a 24-hour period). So not just practical, beautiful and green, reassuringly hygienic too.
