 MELAMINE FACED BOARDS

 HIGH PRESSURE LAMINATE

The inspiration

STEEPED IN HISTORY AND CHARACTER

Inspired by the old reclaimed mooring posts from the famous lagoons at Venice, the Harbor Oaks showcase the most attractive visual characteristics revealed when the posts are flat sawn into planks. Cathedrals, arches and ellipses are some of the eyecatching figuring of these expressive decors, the informal grain patterns and the closely matched planks add another layer of interest.

01

The Collection

RICH IN ITALIAN STYLE

Three versatile shades from the sunbleached neutrality of Vintage Harbor Oak through the naturally weathered Gold Harbor Oak to the dark stained character of Espresso Harbor Oak. There are centuries of Venetian personality and flair soaked into these elegant decors, each making a distinct statement in sophisticated style.

Available in MFPB and MFMDf with matching laminates and edging

The texture

THE LOOK AND FEEL OF VENEER

Available on our Pure Wood (PW) texture; a stunningly realistic timber effect with a semi-matt finish that looks uncannily like a lightly polished veneer, but with all the manufacturing benefits of Melamine Faced Boards; strength, reliability, easy to work and a totally consistent performance.

VISIONARY ARCHITECTURE OF THE

The Combinations

MIX AND MATCH, COMPLEMENT AND CONTRAST

It is undoubtedly the expressive detailing of the Harbor Oaks that lends itself to naturally combine with simple unicolors and similarly complex stones and marbles. Or perhaps contrast with the unique textures of the Flows, our hybrid concrete and steel effect. These decors are a standout focus for any number of interior design concepts.

The integrated solution

SEAMLESS HARMONY ACROSS THE RANGE

With Kronodesign® decorative surfaces you are getting an exclusive, high quality and on-trend design, but we always ensure that our products are complementary. So whatever the project our products all work well together, giving designers and craftsmen the freedom and flexibility to create without restrictions. So there are always perfect matches across a range of products as well as laminates, edging and foils. This is what we call integrated solutions.

05

The environment

DESIGN SUSTAINABILITY

Manufactured at our factory in the UK from a mix of recycled and FSC® certified timber, Kronodesign boards are environmentally friendly and 100% recyclable. What's more every board locks in carbon that would otherwise be released into the environment, and as they are completely recyclable that carbon can continue to be locked in.
